

We went to Arlington
which is a fancy house
that was used a long time
ago. It was two story,
if me and Noah lived back then
we would have a nanny
and have to share a room.
The dining room table was
super fancy every day. It
might look a little like our
table only if we were eating
with the president!

Christmas

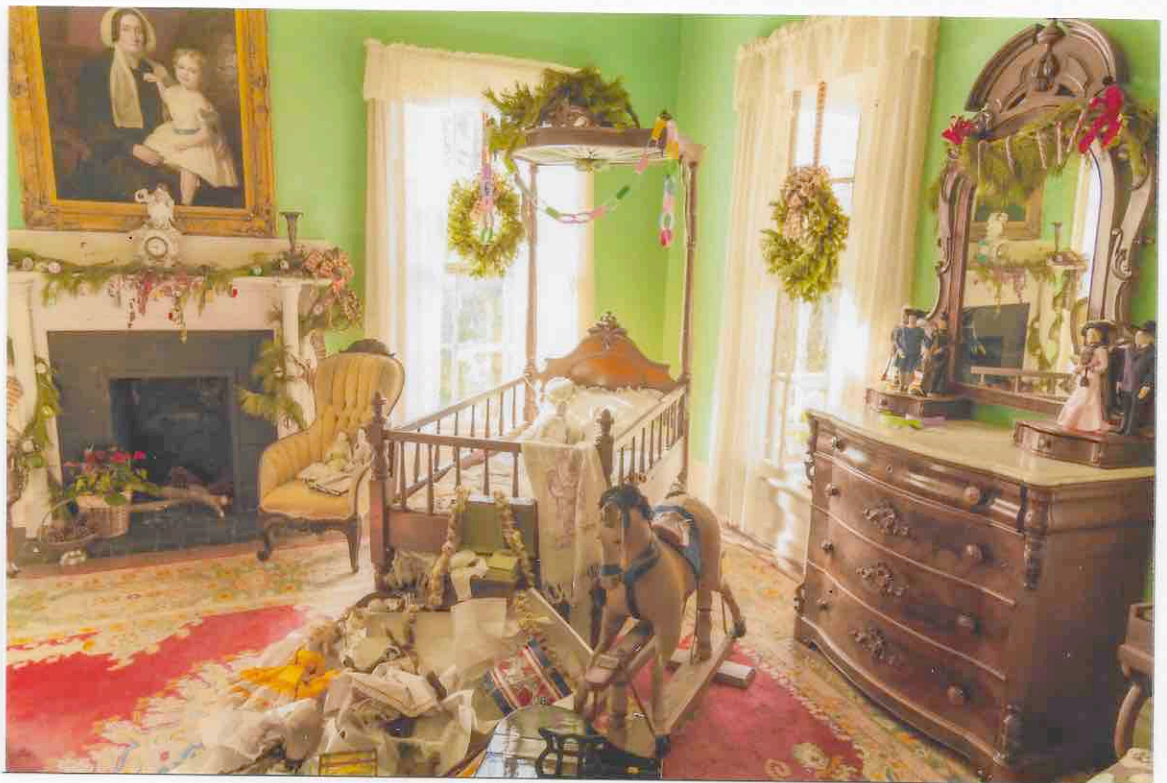

This is
how the
table was
set every
day!

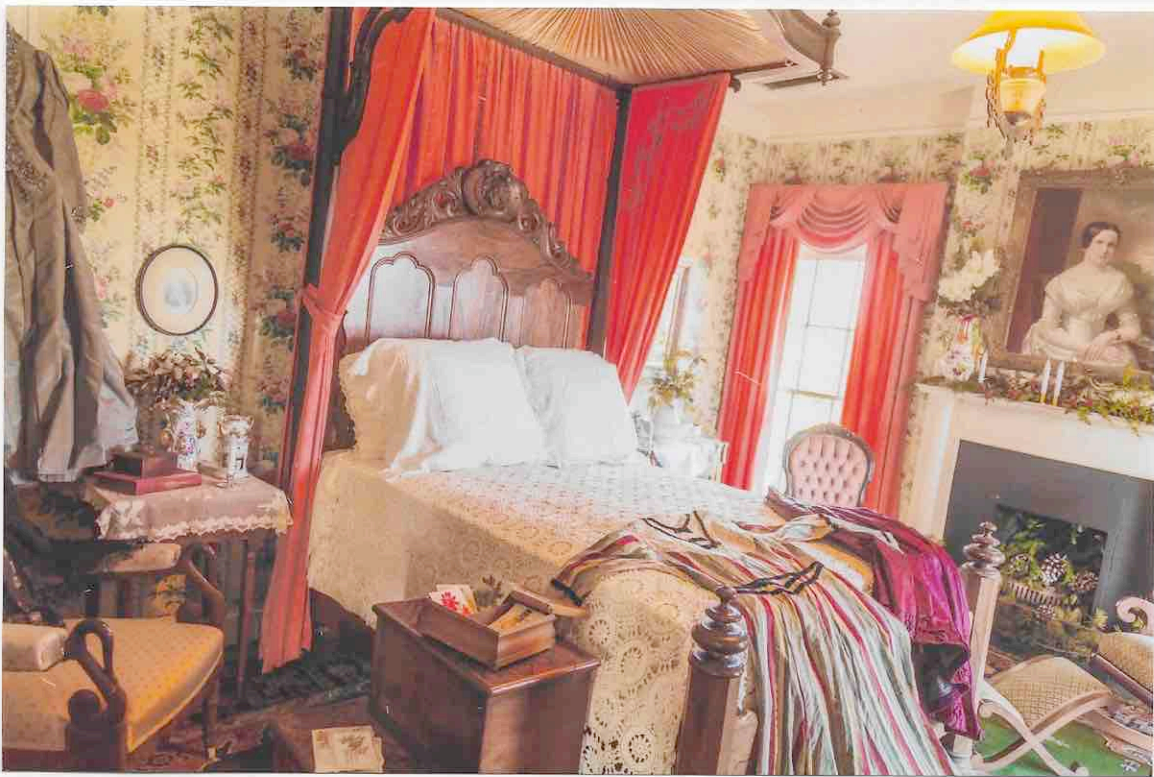

We slid down
the bump
in the bump
in the floor
because of
the plumbing
after the
house
was built
